

Cator, Ruma & Associates is seeking experienced (5 years minimum) Mechanical Engineers who are knowledgeable in HVAC design for commercial/institutional buildings, as well as Electrical Engineers. We are looking for a responsible individual who has a good working knowledge of mechanical systems and temperature controls, and good working knowledge of electrical power, lighting, and communications building systems design. This position requires excellent written and verbal communication skills.

CRA is a well established MEP consulting engineering firm that has enjoyed an excellent reputation since 1959 resulting in a broad and diverse client base. Our firm designs healthcare, educational, commercial and government facilities.

We offer an excellent benefit package including major medical with vision and dental, 401K, disability and supplemental life insurance, gym membership, flex time, generous paid holidays and Friday afternoons off.
